Executive Key Performance Indicators (KPIs)

Median Sentiment Score

76 out of 100 — Favorable rating across all monitored platforms Q2 2026.

Positive Sentiment Volume

78% strong brand equity driven by Menu Items: Jollof, Chicken & Yamrita.

Neutral / Mixed Sentiment

8% neutral volume — highest engagement concentration on Facebook platform.

Negative Sentiment Volume

14% negative — WARNING: high-intensity feedback. Primary driver: Staff & Service quality.

Detailed Sentiment Comparative Analysis by Platform

Instagram

88% Positive sentiment — strongest positive engagement across all platforms. High visual content affinity.

Facebook

15% Neutral/Mixed — highest neutral volume. High engagement but mixed tone in comments and reviews.

TikTok

30% Negative — sharp peaks of intense negative feedback. Service and delivery complaints dominate.

Overall Sentiment

78% Positive | 8% Neutral | 14% Negative. Median Score: 76/100 (Favorable).

Emotional Profile of Our Customers

Joy — 55%

Food taste, celebrations, and visual appeal drive overwhelming delight.

Disgust — 10%

Food quality failures and environmental safety concerns trigger aversion.

Trust — 20%

Brand reliability, consistency, and hygiene build lasting confidence.

Anger — 15%

Service rudeness, long wait times, and unreachable lines fuel frustration.

Interactive Heatmap: Product Moats vs. Operational Bottlenecks

Positive Sentiment

Menu Items / Product

Bedrock moat — Jollof, Chicken & Yamrita drive strong brand loyalty.

Location (Amuwo / Festac)

Mixed-to-positive signals. Improvement noted across both branch locations.

Brand Consistency

Hygiene & presentation perceived as reliable across majority of touchpoints.

Negative Sentiment

Staff / Service

Greatest strategic threat. Rudeness, wait times & unreachable lines dominate.

Delivery / Communication

Critical failure point. Digital order journey broken; WhatsApp lines unreachable.

Third-Party App Service

Highly negative friction. Delivery app SLA failures damaging overall sentiment.
